

Sub B8 23. (Once Amended) A method of making at least two images which can be used in a scrapbook, comprises:

- A8
- a) providing at least one portion of at least one digital image provided by a user;
 - b) modifying the at least one digital image to provide a modified digital image ;
 - c) providing instructions in a digital format containing information for assembling said at least one user supplied digital image; and
 - d) producing visual images from the at least one digital image, the modified digital image and the instructions on at least one single medium so that the visual images can be assembled in a scrapbook.

REMARKS

In the Office Action mailed March 18, 2002, the Examiner noted that claims 1-24 were pending, and rejected all claims. Claims 1, 4, 8, 10, 15, 18, 20 and 23 have been amended, and, thus, in view of the forgoing claims 1-24 remain pending for reconsideration which is requested. No new matter has been added. The Examiner's rejections and objections are traversed below.

Page 2 of the Office Action rejects all claims under 35 U.S.C. 103 over Kalisher and Smith.

As discussed with the Examiner in an interview of May 28, 2002 Kalisher is directed to a system that allows a user to stick customized stickers in a child's book. Smith is directed to a system that allows a user to cut out magnetic representations of doll accessories and stick them to a steel sheet.

In contrast, the present invention is directed to a system in which a digital image is used to create additional digital images of different characteristics and the visual images are formed on a single medium. The Examiner acknowledged that this is not taught or suggested by the prior art of Kalisher and Smith.

It is submitted that the invention of independent claims distinguishes over the prior art and withdrawal of the rejection is requested.

This amendment does not raise new issues and merely makes explicit ("single medium") that which was implicit ("cutting ... the ... images from the medium"). Entry of the amendment is requested.

It is submitted that the claims are not taught, disclosed or suggested by the prior art. The claims are therefore in a condition suitable for allowance. An early Notice of Allowance is requested.

If any further fees, other than and except for the issue fee, are necessary with respect to this paper, the U.S.P.T.O. is requested to obtain the same from Eastman Kodak Co. deposit account number 05-0225.

Respectfully submitted,

STAAS & HALSEY LLP
